### “Radio Hams” from Wabash Valley join in national deployment

#### Public Demo of Emergency Communications June 27 - 28

Terre Haute, IN. June 8, 2009 – Wabash Valley “hams” will join with thousands of Amateur Radio operators who will be showing off their emergency capabilities this weekend. Over the past year, the news has been full of reports of ham radio operators providing critical communications during unexpected emergencies in towns across America including the California wildfires, winter storms, tornadoes and other events world-wide. During Hurricane Katrina, Amateur Radio – often called “Ham radio” - was often the ONLY way people could communicate, and hundreds of volunteer “hams” traveled south to save lives and property. When trouble is brewing, Amateur Radio’s people are often the first to provide rescuers with critical information and communications. On the weekend of June 27 - 28, the public will have a chance to meet and talk with Wabash Valley ham radio operators and see for themselves what the Amateur Radio Service is about. Showing the newest digital and satellite capabilities, voice communications and even historical Morse code, hams from across the USA will be holding public demonstrations of emergency communications abilities.

This annual event, called "Field Day" is the climax of the week long "Amateur Radio Week" sponsored by the ARRL, the national association for Amateur Radio. Using only emergency power supplies, ham operators will construct emergency stations in parks, shopping malls, schools and back yards around the country. Their slogan, "Ham radio works when other systems don't!" is more than just words to the hams as they prove they can send messages in many forms without the use of phone systems, internet or any other infrastructure that can be compromised in a crisis. More than 30,000 amateur radio operators across the country participated in last year's event.

## NEWS RELEASE For Immediate Release

"We hope that people will come and see for themselves, this is not your grandfather's radio anymore," said Allen Pitts of the ARRL. "The communications that ham radio people can quickly create have saved many lives when other systems failed or were overloaded. And besides that – it's fun!"

In the Terre Haute, IN area, the Wabash Valley Amateur Radio Association will be demonstrating Amateur Radio at Shrine Hill Country Place on June 27 – 28, 2009. They invite the public to come and see ham radio's new capabilities and learn how to get their own FCC radio license before the next disaster strikes.

There are over 650,000 Amateur Radio licensees in the US, and more than 2.5 million around the world. Through the ARRL's Amateur Radio Emergency Services program, ham volunteers provide emergency communications for thousands of state and local emergency response agencies, all for free.

The Wabash Valley Amateur Radio Association, INC. is a non-profit corporation organized circa. 1927, chartered as an ARRL Affiliated club April 5, 1934 and Incorporated as 501(c)(3) April 27, 1972. Our purpose is to extend knowledge of the radio art, to advance the general interest and welfare of amateur radio in the community, to encourage service to the public, and to promote friendly social contact among amateurs everywhere. More information is available from the club website [www.w9uuu.org](http://www.w9uuu.org).

To learn more about Amateur Radio, go to [www.emergency-radio.org](http://www.emergency-radio.org). The public is most cordially invited to come, meet and talk with the hams. See what *modern* Amateur Radio can do. They can even help you get on the air!
